

SANBORN'S RECEIPTS.

SIX-SEVENTH OF HIS CLAIMS COLLECTED
BY U. S. OFFICIALS.

ONLY \$1,000 DIRECTLY TRACEABLE TO HIS EFFORTS
TO "DISCOVER AND COLLECT" UNPAID TAXES—
PROOF OF THE FRAUDS FROM THE OFFICIAL
REPORT.

The more thorough the examination of the report of the Secretary of the Treasury in the matter of the Sanborn contracts the more audacious and enormous the robbery appears. This official document contains conclusive proof that more than six-sevenths of the whole amount represented to have been collected by Sanborn was really collected by the regular salaried officers of the United States Government, including the Secretary of the United States Treasury, the United States District Attorney in this city, and the present Collector of the Port of Boston, then a Supervisor of Internal Revenue. The following table has been compiled from the official report; every detail of 41 cases there reported having been examined:

Each amount collected is taken from, and under the name of, the account of which particular case it is shown, and in those few cases,

where no name is given, by whom collected, the amount is shown.
